Skin Contact:	Flush with plenty of soap and water for 15 minutes.
Inhalation:	Remove to fresh air immediately.
Ingestion:	If alert, give 2-4 cupful's of milk/water. Seek medical attention immediately.
Medical Conditions Aggravated by Exposure:	Bronchitis, CNS disorders, allergies, nausea.

Section 5 - Firefighting Measures

Extinguishing Media:	Foam, CO2, Dry Chemical, Water Fog
Unusual Fire or Explosion Hazards:	Handle as a flammable liquid. Vapors form an explosive mixture in air between the lower and upper explosive limits which can be ignited by many sources such as pilot lights, open flames, electric motors and switches.
Fire Fighting Procedures:	Respiratory equipment should be worn to avoid inhalation of concentrated vapors. Water should not be used except as a fog to keep nearby containers cool.

Section 6 - Accidental Release Measures

Personal Precautions:	Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.
Methods For Clean Up:	Remove all sources of ignition. Allow volatile portion to evaporate completely. Avoid breathing vapors and remove with inert absorbent.
Methods for Containment:	Do not incinerate. Dispose of in accordance with local, state and federal regulations. Do not contaminate lakes, streams or other water supply.

Section 7 - Handling and Storage

General Handling Practices:	Reports have associated repeated and prolonged occupational over exposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Avoid spontaneous combustion of

contaminated rags or other ignitable material. Keep out of reach of children.

Storage Requirements: Do not store near heat, sparks or flame. Store in well ventilated area. Keep closure tight and container upright to prevent leakage. Do not puncture or incinerate. Do not sprat near fire or open flames.
